Hei-VAP Expert - motor lift model with coated G1 diagonal glassware $_{\text{P/N:}\ 574\text{-}01110\text{-}00}$

Precise setting of rotation speed and heating bath temperature on the digital touch display or – for quick access during an active process – directly via the knobs on the operating panel.

- Central operating panel with 5" touch display
- Motor lift model with transparent plastic coated G1 diagonal glassware
- Clear display of all values (Basic and Advanced modes)
- With timer, limitation of max. temperature, multilingual menu and text display for error messages
- Separate knobs for rotation and heating with locking function to prevent accidental readjusting
- LED ring lights and pictogram to display the activity even from a distance
- Integrated solvent library to facilitate adjustment of the required vacuum on an external vacuum controller
- USB and Micro SD interfaces
- Optional display of vapor temperature
- Subsequent upgrade to Hei-VAP Expert Control possible, including vacuum and chiller control
