

Reax control

P/N: 541-11000-00

The precise one with speed scaling

All the outstanding features of the Reax Top's "little brother" can be found in this model: a rotational speed of up to 2,500 rpm and a 5 mm shaking orbit.

The electronic speed control and the scaling of the speed display allow precise settings. Applications that require a determined speed are thus shaken more gently. Shear force-sensitive organisms remain particularly protected by the constant speed in the low range.

Reax control - Technical Data

Overheat protection	self-resetting
Permissible ambient conditions	5 - 31 °C at 80 % rel. humidity 32 - 40 °C decreasing linearly up to max. 50 % rel. humidity
Weight	0.00 kg
Protection class (EN 60529)	IP 22
Timer	-
Rotation speed range	0 - 2,500 rpm
Power input	51
Dimensions (w/d/h)	134 x 172 x 105 mm
Max. Load	-
Operating Mode	automatic or continuous
Rotation speed setting	analog
Orbit / Stroke	0 mm
Platform size	-
Accessories included	-
Angle	-
Motion	vibrating
Ambient temperature range (operation)	-
Ambient temperature range (storage)	-
Interfaces	-
Usable area	-
Installation altitude	-
