Hei-VAP Core - hand lift model with coated G3 XL vertical glassware P/N: 571-01315-00

An operating concept that is focused on the essentials: clear and with access to the basic parameters rotation speed and heating bath temperature at any time.

- Clear digital display showing actual and set values
- Two separate knobs with dynamic control for setting the rotation speed and heating bath temperature: fast turning for large jumps, slow turning for precise setting of the set values
- Accidental changing of the values can be prevented by the lock function
- Intuitive LED ring light system makes activated functions clearly visible even from a distance
- Easy adjustment of the immersion depth up to 155 mm and the inclination angle from 20° to 80°
- Standby function and residual heat warning at heating bath temperatures above 50 °C
- Hand lift model with transparent plastic coated G3 XL vertical glassware achieve higher evaporation rates due to expanded cooling surface of 2,200 cm²
- The standby button stops all functions.
