

VISCO JET® CRACK - 80 mm

P/N: 509-17080-00

- Reduce your process times significantly while performing the best mixing results ever
- One system for literally all mixing tasks for low to high-viscosity media
- The turbulent flow which is created by a special cone principle even at low speeds is unique to the VISCO JET®
- Even with high-viscosity media and gels which naturally do not mix when common impellers are used you will observe an immediate flow through the entire beaker
- This technology allows for de-gassing of gels while preventing air intake and foaming
- A stirrer shaft is included as standard.

## VISCO JET® CRACK - 80 mm - Technical Data

Blade size	80 mm
Material	stainless steel V4A
Length	∅∅∅ mm
Shaft diameter	∅∅ mm
For vessel diameter	115 - 200 mm
Rotation speed range	200 - 700 rpm
