

PR 32 Ringed Pitched-Blade Impeller (45 mm)

P/N: 509-32000-00

Due to its blade dimensions, the ringed pitched-blade impeller PR 32 is ideal for solutions, emulsions and suspensions in vessels with the following characteristics:

- ideal vessel diameter: 113- 225 mm
- ideal ground clearance: 23- 45 mm
- ideal filling level: 113- 225 mm
- ideal volume: 1,100- 8,900 ml

The ringed pitched-blade impeller PR 32 has a total length of 400 mm and is made of stainless steel. Its stirrer shaft has a diameter of 8 mm.

PR 32 Ringed Pitched-Blade Impeller (45 mm) - Teknik veri

Blade ölçüsü	45 mm
Materyal	stainless steel V4A
Uzunluk	400 mm
Şaft çapı	8 mm
Mak. Rotasyon hızı	2.000 rpm
